

SUN Products

PrintPrep™ Unit

In-line Sheet Cleaner

Clean sheets • Better printing • Significantly reduced need for plate cleaning • No hickeys • Solves the “print short” problem

A full-width unit providing ample space to effectively clean sheets using a de-ionizing static bar to neutralize the electrical charge that binds the dust particles to the liner and a rotating non-static brush to sweep them away. SunTrac vacuum transfer technology assures accurate sheet transfer and eliminates the "print Short" problem. Includes a dust collection system and automatic brush and filter cleaning.
